INFO:

Use an Anonymous or Transparent proxy to view this page.

IMPORTANT: Do not use an "Elite" or "High Anonymity" proxy, this script is set to detect the HTTP_X_FORWARDED_FOR variables used by low anonymity proxies.

Process of Solving:

Switched to system proxy with settings of 140.82.0.230:8080 and reloaded page.

Writeup:

Congratulations on beating the mission again.
No credits were rewarded, but it's good to see you're testing your skills again.
Return to Enigma Main

Well done. An important part of hacking is remaining anonymous. Using proxies is an important way of remaining safe on the internet. An important thing to take away from this mission is the fact that although you were using a proxy it wasn't the best one. In fact, using a transparent proxy doesn't stop a web server from knowing who you are.

 Hopefully you now know where to find proxies and how to use them. Enigma Group recommends purchasing a tunnel at http://privatetunnels.com. Proxying is a powerful tool which every hacker should be using.
